

HOU MENGHOR

PROFILE

A Computer Science graduate from the Royal University of Phnom Penh (RUPP) with a passion for web development. Experienced with HTML, CSS, Bootstrap, JavaScript, PHP, Laravel, VueJS, NuxtJs, ReactJS, PostgreSQL, MySQL, Git and Github. Demonstrated ability to build responsive and user-friendly websites through hands-on projects. My dream is to become a professional web developer, and I am fully committed to continuous learning and hard work to achieve this goal.

PROJECTS EXPERIENCE

Tos Louk E-Commerce System

- Full-stack architecture using NuxtJs SSR and Laravel RESTful API
- JWT authentication with Laravel Passport and OTP verification
- Strict Role-based access control (RBAC) and state management using Pinia
- Secure checkout with Bakong KHQR payment gateway integration
- Real-time WebSocket notifications via Laravel Reverb & Laravel Echo
- Comprehensive admin dashboard with dynamic Chart.js analytics
- PDF and Excel data export reporting (ExcelJS & PDFmake)
- Cloudinary integration for scalable cloud file storage
- Third-party API integrations: Google OAuth and Facebook for social login, and Telegram/Email for automated system alerting
